WOODLAWN ASSET

COPPER/ZINC MINE

- Purchased in May-22 for A\$100M
- Inherited ~A\$340m of prior capital expenditure
- Develop has spent ~A\$60m on the mine

Major achievements of this spend are;

- Key operational team in place
- Resource increased by 55% to 11.3Mt at 1.8% Cu, 5.8% Zn, 2.1% Pb, 46g/t Ag and 0.5g/t Au
- Reserve increased by 94% to 6.0Mt at 1.5% Cu, 3.6% Zn, 1.3% Pb, 29g/t Ag and 0.4g/t Au
- First 2 years of ore production fully developed
- Delivered a 10-year mine plan

FUNDING & OFFTAKE

- Leading base metals commodity trader, Trafigura, has agreed terms to provide a ~A\$100M pre-payment/loan facility to bring Woodlawn into production. Funding terms are flexible
- As part of the funding, Develop is also in the process of agreeing a ~5 year offtake arrangement across all concentrates produced from the Woodlawn mine. We have flexibility to allocate up to 20% of volumes to a minority partner
- Under this arrangement, treatment and refining charges are materially lower than assumed in the April-24 Restart Study. This has resulted in an A\$80 million improvement to the project's NPV
- The key terms of the Woodlawn loan facility to be provided by Trafigura are detailed below

Debt Sizing	US\$65 million or equivalent in A\$, being approximately A\$100 million as at the date of this announcement
Term	4.5 years from drawdown
Interest Rate/Margin	SOFR 3 month + 2% (if drawn down in US\$) or BBSY 3 month +2% (if drawn down in A\$)
Security	General security agreement over all assets of Woodlawn Mine Holding Pty and Tarago Operations Pty Ltd with a Parent Company Guarantee granted by Develop Global Limited
Grace Period	18 months from drawdown date and then a reduced amount of US\$5 million or approximately A\$7.7 million for the period 18 months and 24 months after drawdown date
Capitalised Interest	Interest will be capitalised during the Grace Period
Up-Front Fee	1.00%
Voluntary Early Repayment	Anytime with 5 business days' notice. Any early repayment shall be made with accrued interest on the amount repaid early and break costs
Coverage Ratio	At any time, cargo value to be at least 175% of outstanding indebtedness
Offtake Required	~5-year offtake across all concentrates (including, without limitation, copper, zinc and lead) produced from the Woodlawn mine
Hedging	No mandatory hedging required

TRAFIGURA – DEBT & OFFTAKE PARTNER

Trafigura is a leading supplier of commodities and has a large share of the global base metals market. It manages complex supply chains to move minerals, metals and energy from where they are produced to where they are needed

- Trafigura has annual revenue of ~US\$250 billion, an equity base of over US\$16 billion
- They have access to close to US\$75 billion of credit lines provided by a network of around 150 banks
- In Australia, Trafigura is the largest commodities trader for base metals
- They provide significant funding for many Australian and International mines. Through its subsidiary Nyrstar, it has smelters in Australia
- We have established a relationship with one of the world's biggest commodity traders. This stands Develop in very good stead for establishing additional projects or opportunities, including Sulphur Springs and Pioneer Dome

Trafigura

WOODLAWN RESTART KEY UPDATE RESULTS

- Pre-tax NPV increases by 11% to A\$728m
- Pre-tax free cashflow increases to A\$1.1b
- Updated NPV is based on consensus prices forecasts used in April-24 to enable like-for-like comparisons of the two NPV results
- Both copper and zinc spot prices are +10% higher than when the April NPV was released
- The pre-production capital and max cash down increase by \$A11m to A\$78m due to increases in processing and optimising mining sequence
- With this debt, existing cash of A\$30.5m and a profitable mining services division which will grow cash in FY25, Woodlawn is now fully-funded through to production and cashflow in Mid-2025 (subject to final investment decision)

SULPHUR SPRINGS ZINC-COPPER PROJECT

- The project is a high-grade Zinc and Copper Resource of 17.4Mt @ 5.8% Zn, 1.0% Cu & 21gpt Ag located in the Tier 1 mining district of WA
- This was the sole asset Venturex recapitalised on (market cap A\$40M) in Jun-21 it resulted in the initial A\$38M funding package from new shareholders
- Develop has spent A\$15M over the past two years on our operational goals
 1. All major project approvals are granted (Ministerial environmental approval, Mining Proposal and Mine Closure plan)
 2. This resulted in a substantial increase in Resources and Reserves
 3. Changed the mine plan to underground mining only, simplifying the execution
 4. Jun-23 Definitive Feasibility Study delivered a post-tax NPV of A\$523M. Mine life of 8 years and upfront capital requirement of A\$296M.
- Once the mine is built it generates ~A\$147Mpa of pre-tax cashflow; commodity prices are substantially higher since this DFS was released
- Only 135kt of zinc is subject to an offtake agreement, no offtake for copper. This makes the project highly desirable for offtake partners
- Further opportunities to add value through exploration and increasing plant capacity. Kangaroo Caves and Sulphur Springs open pit were not in the DFS

Notes

- The Ore Reserves Estimates are reported in accordance with the guidelines of the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code). The estimates are reported at 30 June 2024.
- Ore Reserve figures are reported using cut-off grades (Li2O%) or NSR calculation best suited to each deposit.
- Tonnages are dry metric tonnes. Minor discrepancies may occur due to rounding.
- The copper equivalent grades for Woodlawn (Cu Eq) are based on copper, silver, lead and zinc prices of US\$10567/t Copper, US\$2183/t Lead, US\$2910/t Zinc, US\$28/oz Silver and US\$2517/oz Gold with metallurgical metal recoveries of 85% Zn, 67% Pb, 75% Cu, 50% Au and 90% Ag based on historical recoveries at Woodlawn and supported by metallurgical test work undertaken. The copper equivalent calculation is as follows: $Cu Eq = Cu \text{ grade} \% * Cu \text{ recovery} \% + ((Pb \text{ grade} \% * Pb \text{ recovery} \% * (Pb \text{ price } \$/t / Cu \text{ price } \$/t)) + (Zn \text{ grade} \% * Zn \text{ recovery} \% * (Zn \text{ price } \$/t / Cu \text{ price } \$/t)) + (Ag \text{ grade } g/t / 31.103 * Ag \text{ recovery} \% * (Ag \text{ price } \$/oz / Cu \text{ price } \$/t)) + (Au \text{ grade } g/t / 31.103 * Au \text{ recovery} \% * (Au \text{ price } \$/oz / Cu \text{ price } \$/t))$. It is the opinion of Develop Global and the Competent Person that all elements and products included in the metal equivalent formula have a reasonable potential to be recovered and sold.
